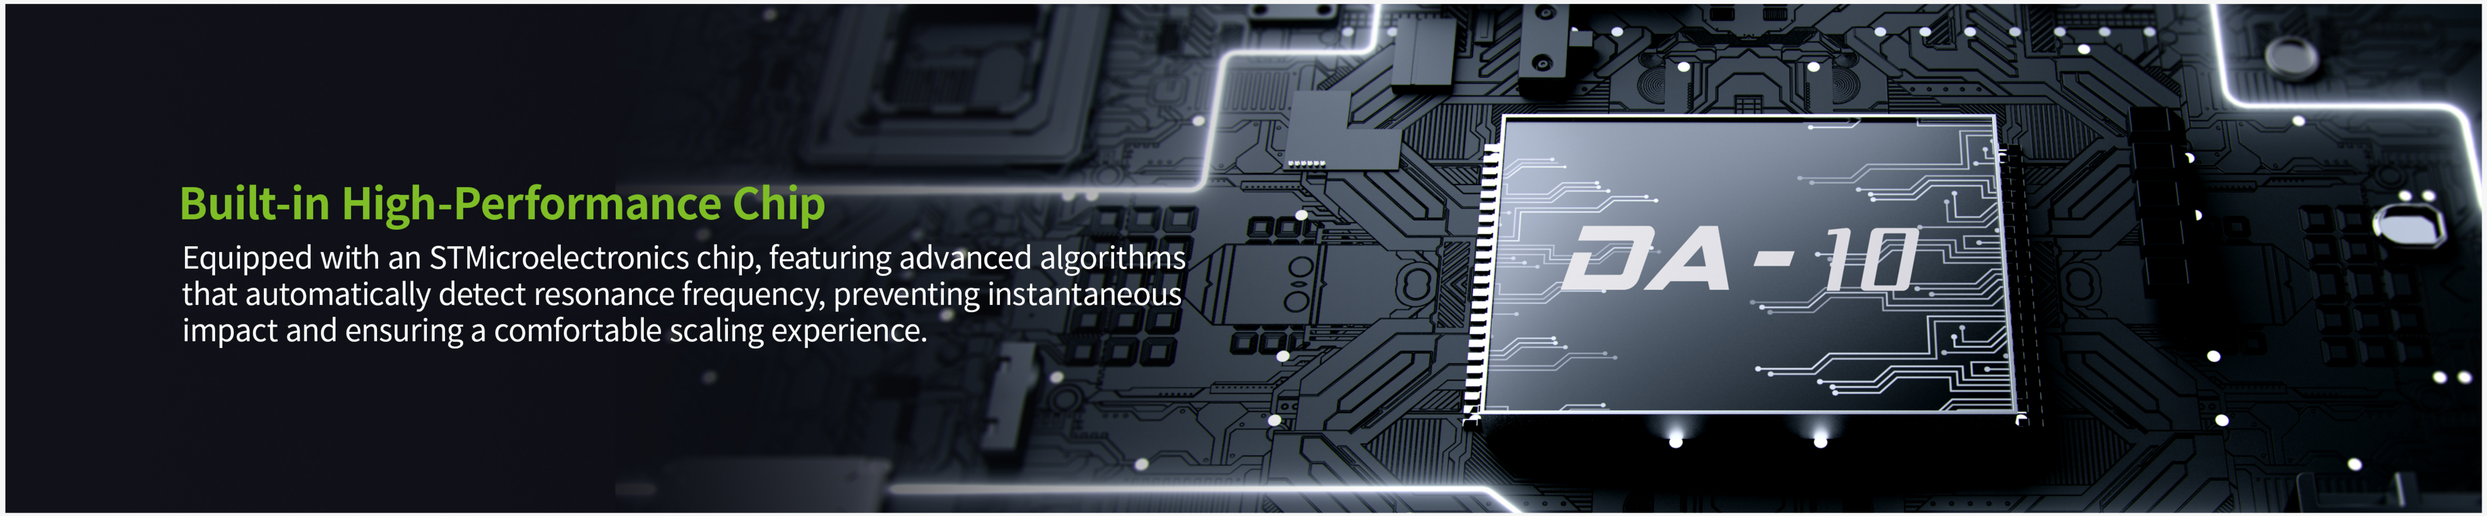
VRN

ULTRASONIC SCALER
VRN'S NEW "SONIC" ERA SCALER

DA-10

Built-in High-Performance Chip

Equipped with an STMicroelectronics chip, featuring advanced algorithms that automatically detect resonance frequency, preventing instantaneous impact and ensuring a comfortable scaling experience.



Smart Touch System

Responsive waterproof touch panel with one-touch switching between **G** (scaling), **P** (periodontal), and **E** (endodontic) modes.
Offers **12 power** levels for precise treatment customization.

High-Quality Lighted Handpiece

New handpiece assembled technology with a detachable design, able to use high-temperature and high-pressure sterilization. Soft light source provides clearer visibility during treatment.

INTELLIGENT FEEDBACK

Automatically adjusts power based on calculus hardness, increasing power as needed for enhanced cleaning efficiency.

SUPRAGINGIVAL SCALING

Before

After

Before

After

G1 ×2 | G2 ×1 | G4 ×1 | P1 ×1

Supragingival Scaling

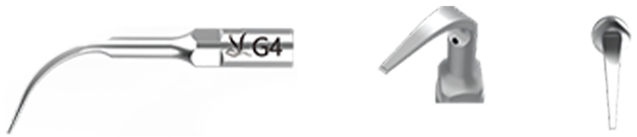
G1

Supragingival scaling, used to remove large supragingival calculus in all directions.

G2

Flat edge is used to remove heavy supragingival calculus.

G4



Used to remove all supragingival calculus and bacterial plaque and supragingival interdental areas.

Periodontal Treatment

P1

Used for subgingival calculus removal and periodontal irrigation.

Manufacturer Name: Guilin Veirun Medical Technology Co., Ltd.
