

DP-10

Dental Air Polisher

★ **Efficient** ★ **Comfortable** ★ **Comprehensive**

Making Teeth Cleaning More Efficiency and Comfort.

Efficient

Precise air polishing
Double the efficiency

**0.7mm aperture
sandblasting tip**
Small diameter nozzle

**5 levels of
protective structure**

Water-air separation,
Preventing leakage and moisture

360° rotating

Comprehensive Cleaning
with No Dead Angles

MAX scale design

Clear visibility of
powder level

Ergonomic design

Easy operation
without fatigue

0.7MM APERTURE SANDBLASTING TIP

Precision-engineered for concentrated blasting and thorough teeth cleaning

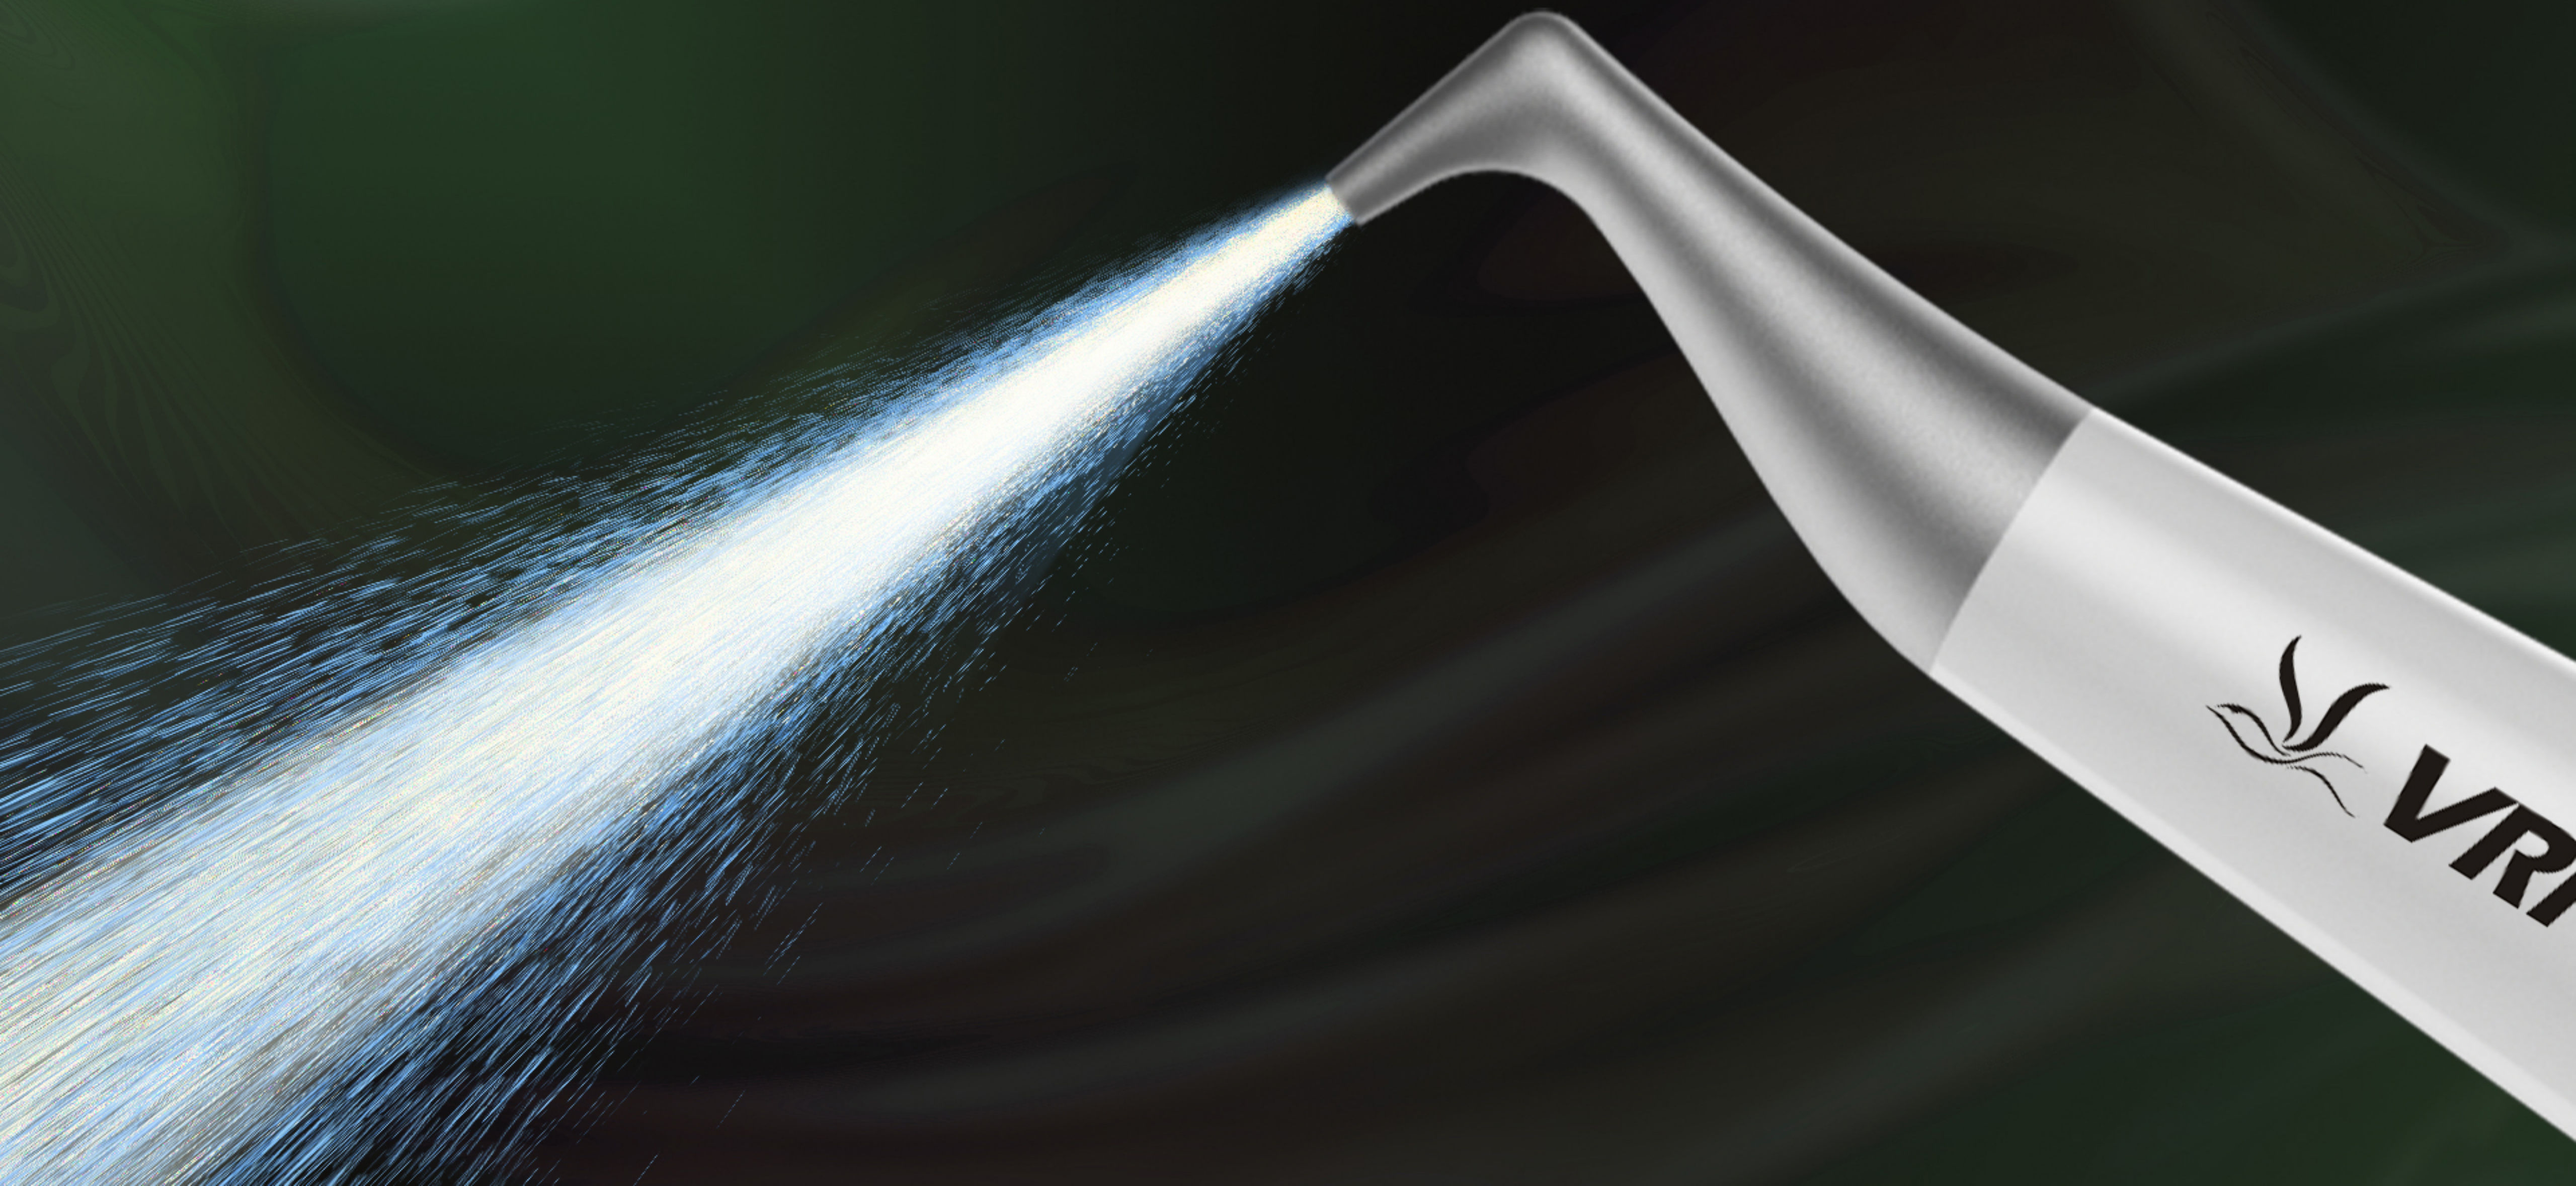

0.7mm

Small Diameter Nozzle

ANTI-BLOCKAGE HANDPIECE, DURABLE

No complicated disassembly, easy maintenance, and longer service life.

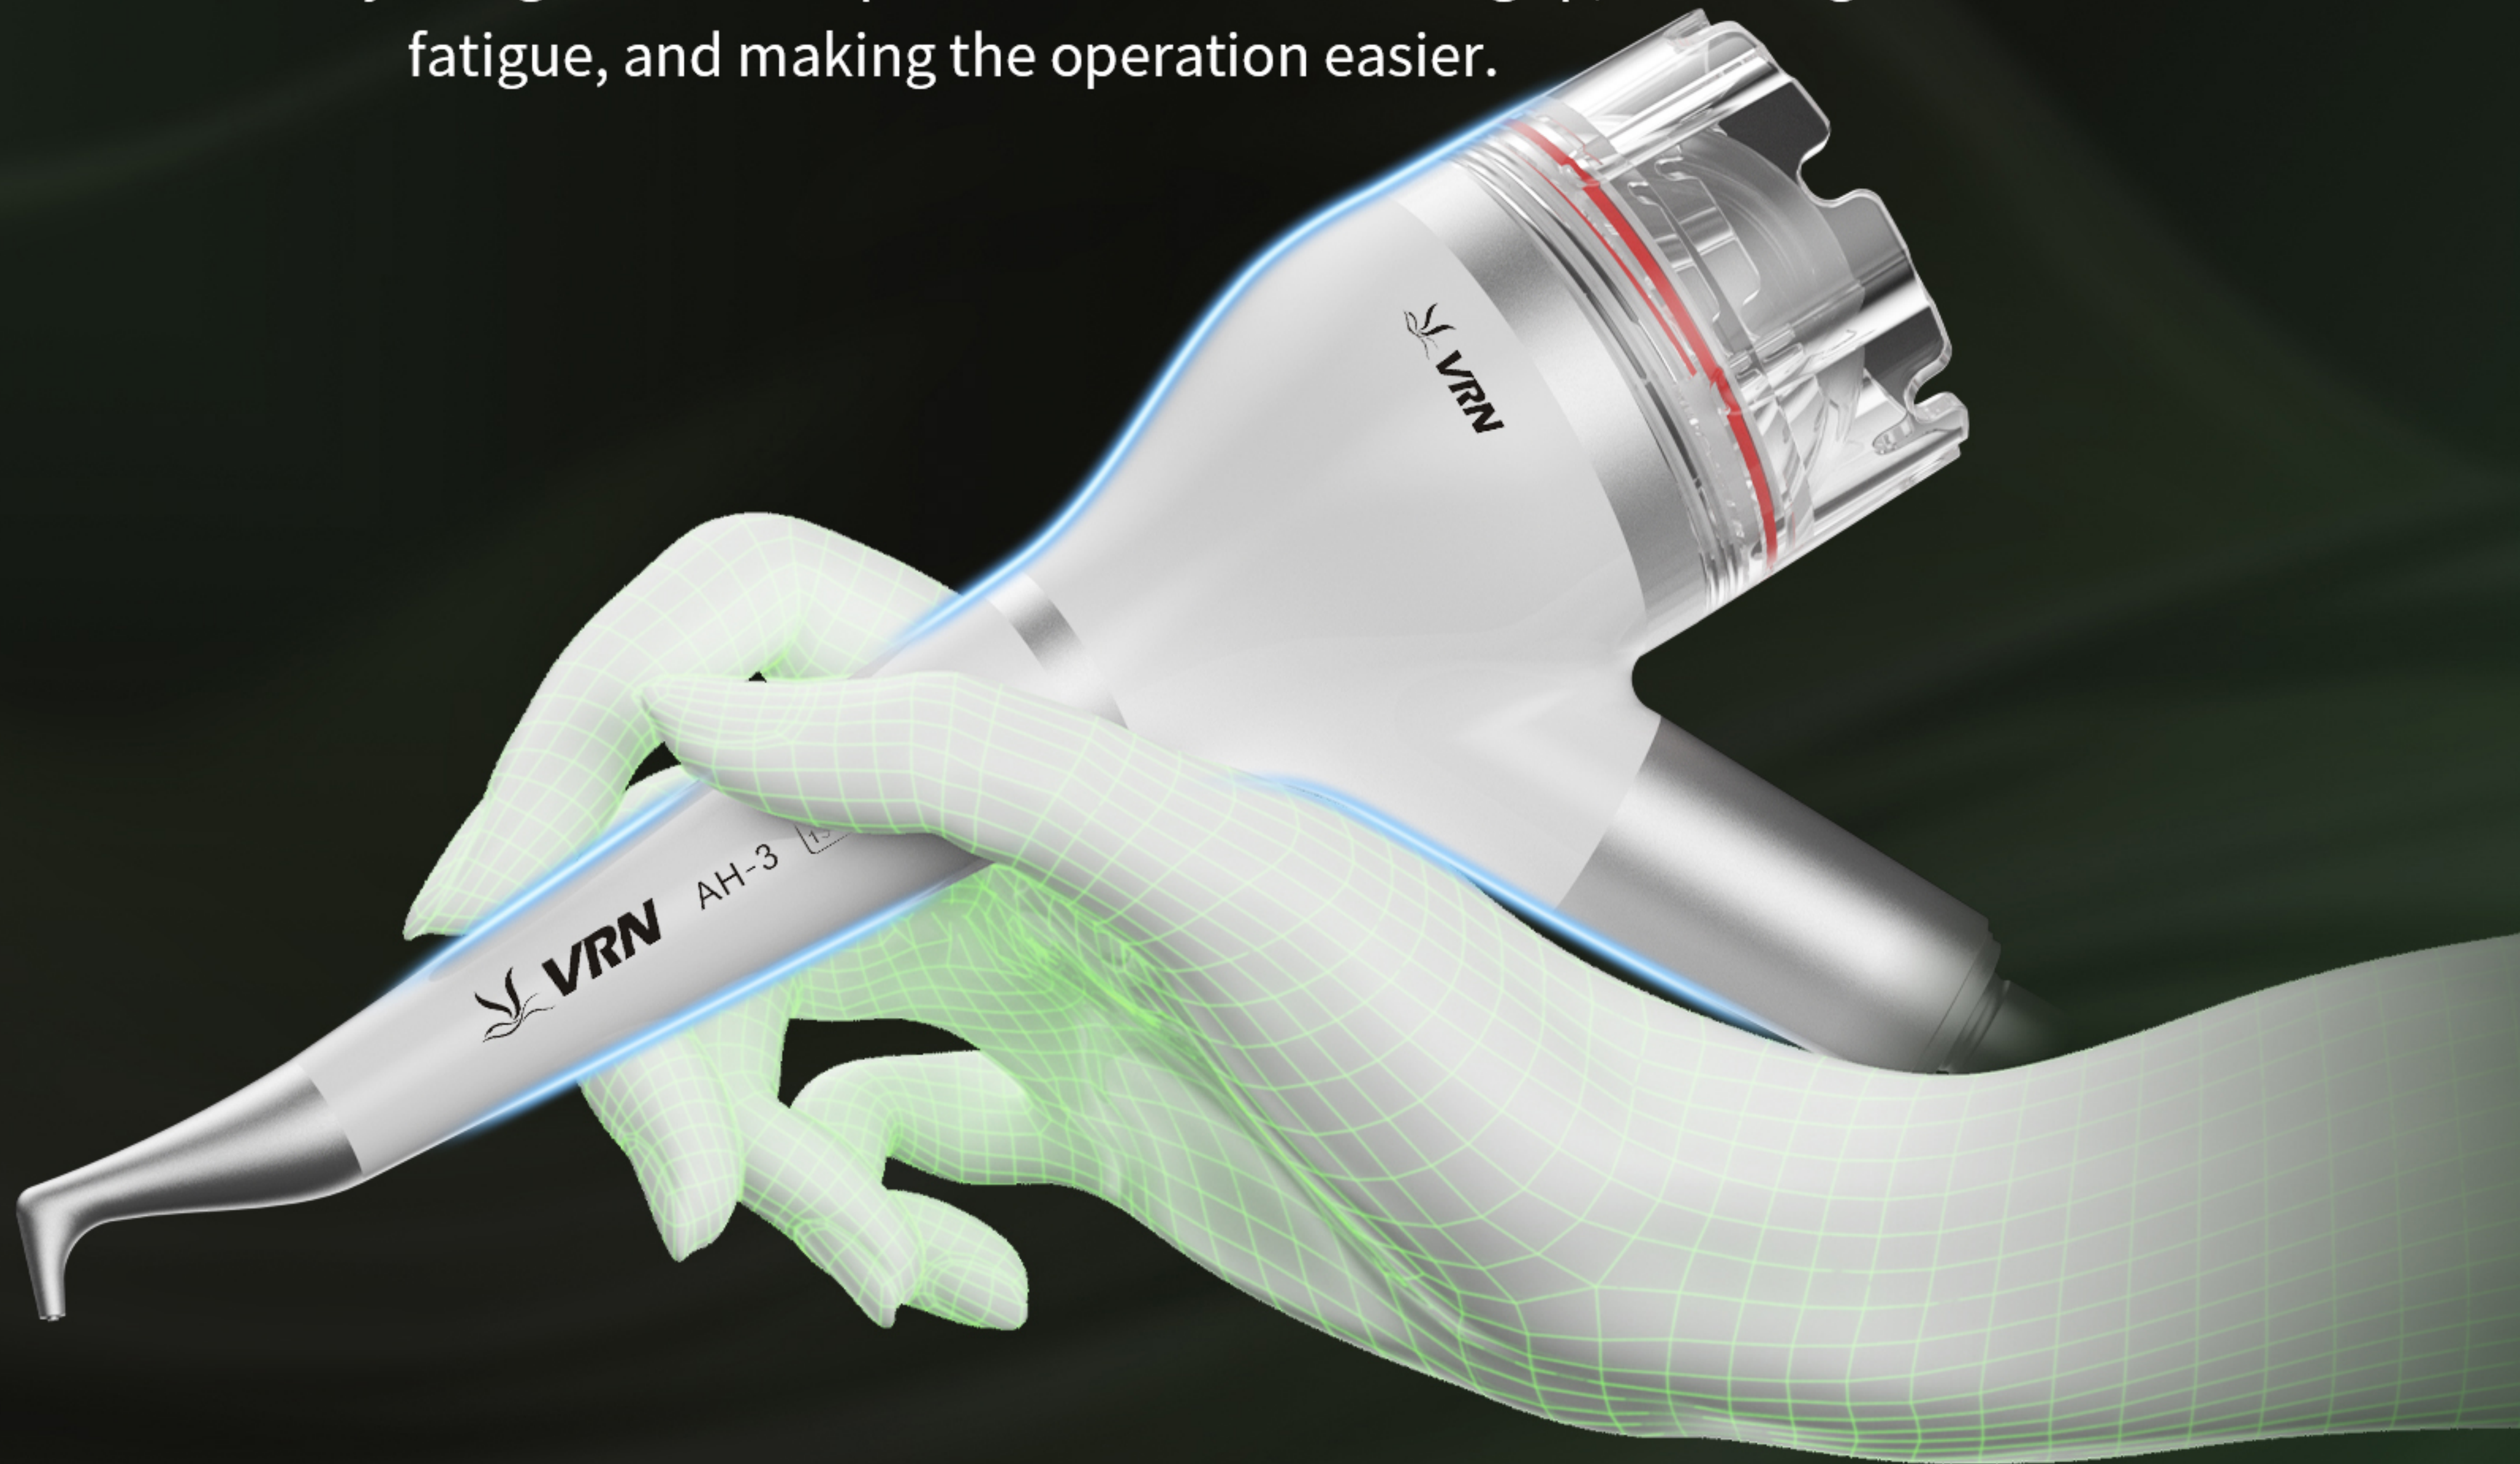

360° ROTATING POLISHING NOZZLE, CLEAN EVERY ANGLE

Air Polisher Nozzle Rotates 360°, Effortlessly Reaching Lingual, Buccal, and Interproximal Hard-to-Clean Areas.

ERGONOMIC DESIGN, COMFORTABLE GRIP

The carefully designed handle provides a comfortable grip, reducing fatigue, and making the operation easier.

THOUGHTFUL DESIGN, CLEAR VISIBILITY

MAX scale design: Transparent powder container, the powder level is clearly visible to avoid waste and ensure continuous treatment.
